

# Sigma Worksheet

Chirag Manghani

Peer Reviewer- 9/26

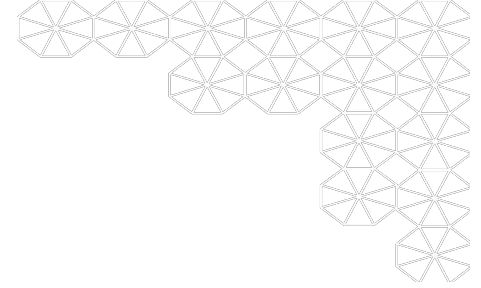

# Summary of contribution:

The paper presents an in-depth exploration of the Sigma Worksheet, a novel tool designed to bridge the gap between traditional SQL queries and user-friendly interfaces like spreadsheets for CDWs.

Through extensive experimentation with TPC-H-like data and feedback from its growing user base, the authors offer insights into the tools' utility, performance, and areas for future improvement.

# Strong Points:

**S1: Extensive Experimentation**

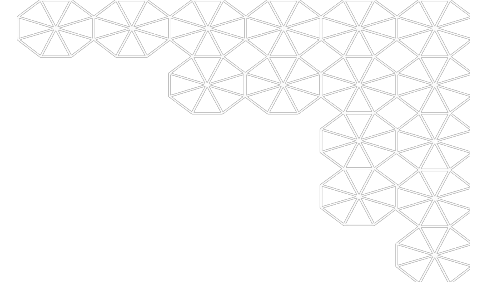

**S2: Broad User Feedback**

**S3: Scalability**

**S4: Data Democratization**

**S5: Transparency in Results**

# Opportunities for Improvement:

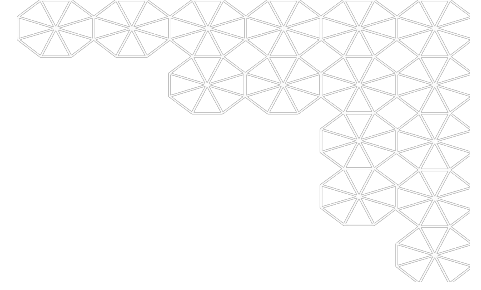

**O1: In-depth Analysis of Performance Lags**

**O2: Comparative Analysis**

**O3: Enhanced User Feedback Analysis**

**O4: Clarity on Hybrid Evaluation**

# Overall Evaluation:

**ACCEPT**
