

*Healthcare Facility Management*

# VitaTech Health Solutions

**Presenter Name:**  
Ankita Shanbhag

**Role:**  
Industry Practitioner

# Navigating the Data Deluge in Healthcare Facilities

*Environmental  
Monitoring  
System*

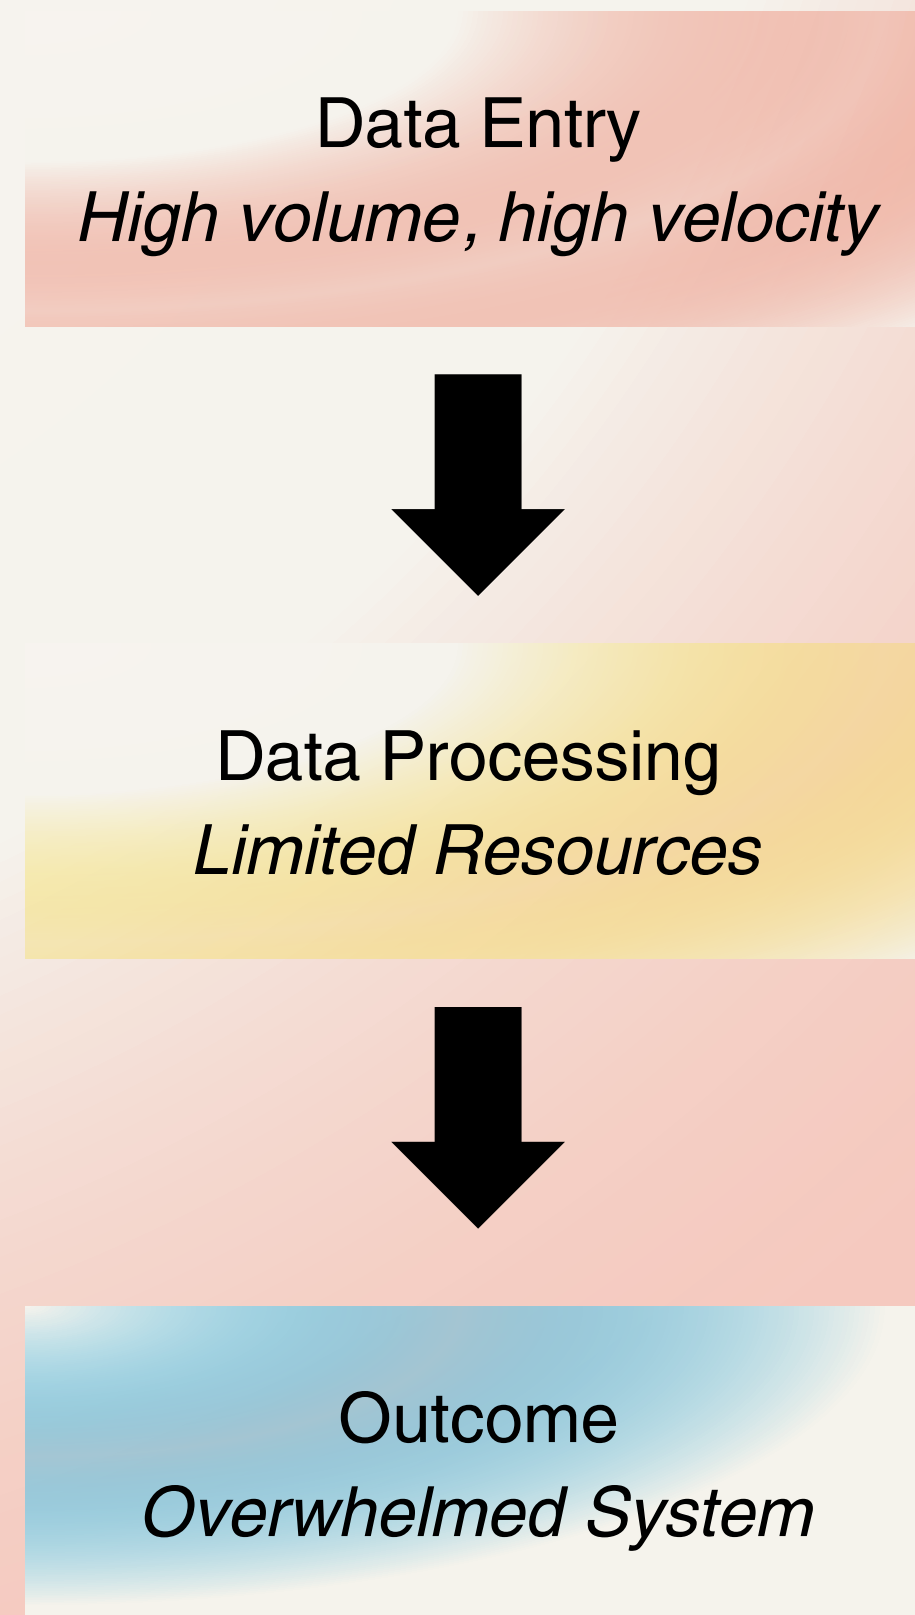

*Building  
Monitoring  
System*

*Health  
Monitoring  
System*

# Problem

# OBJECTIVE

*To address these challenges, we propose the adoption of MacroBase, a cutting-edge analytics engine designed for fast data streams.*

# SOLUTION

***MacroBase:***  
*Revolutionizing  
Data Analysis in  
Healthcare  
Facilities*

**WHY?**

**Real-Time Anomaly  
Detection**

**Efficient Data  
Prioritization**

**Enhanced Decision  
Making**

**How?**

**Integrate with existing  
data infrastructure**

**Train staff**

**Protocols to respond to  
insights and anomalies**

# Risks

# Mitigation Strategies

**Data Privacy and Security**

**Implement robust security protocol**

**Dependence on Technology**

**Combine MacroBase insights with expert human analysis**

**Adaptation and Learning Curve**

**Provide comprehensive training**

**Thank you!**
